

Seat Upholstery

TYPE III

Why TMI Upholstery?

All TMI products feature EXACT and AUTHENTIC colors, which makes matching OEM or TMI colors easy and accurate. Plus, future additions blend in perfectly. Some brands always seem to be a shade different, even when you think you're buying the right color. Mismatched colors look cheap and not very professional...why settle for "close" when you can have EXACT from TMI?

The "piping" (also known as Welt) on seats and door panels can be made two ways, Extruded or Wrapped. TMI's Extruded method produces piping made of solid color, that is 23 times thicker than a vinyl wrapped cord. No matter how much wear you give Extruded Piping, it never shows the cord or white string like wrapped cord will show.

Original Style Seat Upholstery
